Maha Mohamed Fathy Hassan

Front End Developer

⚲ Egypt, Cairo ✉ mahafathyh@gmail.com 📞 +20 1009848702

in mahamfathy ⏻ mahamfathy

Summary

Front-end developer with strong expertise in Angular, TypeScript, and responsive UI design, backed by real-world experience from internships, freelance work, and intensive boot-camp training. Passionate about building clean, scalable web applications with a focus on user experience and performance.

Experience

Frontend developer Bootcamp

Upskilling EG   *Nov 2024 – Feb 2025*

- o Joined the JSB (Job Simulation Bootcamp) program, accumulating 108+ hours of intensive, hands-on experience to become an outstanding front-end developer.
- o Completed 4 real projects with a team. Applied Agile methodologies in project management and utilized Git/GitHub for version control.
- o Worked under the guidance of a dedicated mentor to improve problem solving abilities, collaboration skills, and technical proficiency through project-based learning.

Frontend developer intern   *May 2024 – June 2024*

Amasi-Tech

- o Developed admin dashboards for E-Learning.
- o Applied figma charts using apex charts, chartjs and make customizations to fit the needs and to build interactive user interfaces.

Skills

Angular 2+	Jira & Kanban flow
TypeScript	Problem Solving
NgRx	Team Worker
charts	Angular Material
JavaScript (ES6+)	Responsive design
HTML5	Self Learning
CSS3	Presentation
PrimeNg	SASS
Git & Github	Bootstrap
Postman	Swagger

Projects

Portfolio ⬈

- ◦ Designed and developed a fully responsive personal portfolio website using Angular, demonstrating expertise in front-end technologies such as TypeScript, Angular, and SCSS. The portfolio features dynamic content, smooth animations, and a user-friendly interface to highlight my skills, projects, and certifications. It showcases a strong focus on performance optimization and clean code practices.

Hotel system ↗

- Developed a modular hotel system website creating Admin, User, and Authentication portals.
- Admin Portal: dynamic dashboard, charts, and CRUD operations for users, rooms, facilities, bookings, and ads.
- User Portal: User-friendly authentication, landing page with display, favorites, comments, and ratings, seamless payment and room booking process.
- Authentication Module: Secure login, registration, password recovery, and reset functionalities.
- translation and dark mode feature.

Quiz platform website ↗

Built a quiz platform with distinct roles for teachers and students.

Teacher Features:

- Manage students in groups or individually and transfer students between groups.
- Create timed quizzes with unique codes and maintain a question bank with editing capabilities.
- View detailed results of quizzes for performance analysis.

Student Features:

- Access quizzes using unique codes, view results, and review question answers.
- Enhanced user experience with streamlined group management and quiz functionality.

Project management system ↗

Built a platform with distinct roles for employees and managers.

- Manage and block users effortlessly.
- Create, update, view, search, and delete projects and tasks.
- Assign tasks to employees with ease.
- Track real-time task progress and statuses.
- Quick search for users, projects, and tasks.
- Streamlined workflows for managers and employees.

Food system ↗

Built a platform.

Authentication module

Angular Material and sass for enhanced UI components.

User and admin views.
